

**BECKER**

Instrument and apparatus  
trolleys, multi-purpose and  
transport trolleys

**INFORMATION**

**510**  
**EN**

## Instrument, apparatus and multi-purpose trolleys

comply with the DIN standard for packaging of sterile goods.

### Instrument trolleys are available in height 800, 900 and 1000 mm

They consist of a sturdy chrome nickel steel tubular frame and are mobile on 4 antistatic swivel castors, 75 mm diameter, with bumpers. Two of the castors are fitted with brakes. Removable chrome nickel steel shelves are either inserted or placed on top. Optional extras include a plastic guard and a drawer in closed housing.

### Apparatus trolleys, 650 mm high

Guarantee an optimum working height for locating equipment. For the technical specifications, see the instrument trolleys.

Instrument and apparatus trolleys may be provided with twin wheel castors to endure MRI compatibility.

### Becker equipment:

- for the ward
- for the operating theatre
- for the central sterilisation unit
- for the endoscopy
- for all function rooms

# BECKER

**Multi-purpose trolleys, 865 mm high** feature a **push handle** and **swivel castors**, diameter **125 mm** for greater manoeuvrability. In all other respects, the design of these trolleys is identical to that of the “instrument trolleys”.

**Transport trolleys,** **965 or 1280 mm high,** are provided **with shelves firmly welded in between two circular tube push handles,** featuring a high rim with large radii all around to avoid soiling. Mobile on 4 castors with a diameter of 125 mm. 2 of the castors are fitted with brakes. Plastic bumpers are fitted to prevent damage to the trolley.

For specific-purpose use, we also offer **anaesthetic table, sterilisation tray trolleys, pallet trolleys, and universal trolleys;** they also comply with the DIN standard for packaging of sterile goods.

## **Material**

All trolleys and tables as well as the chrome-nickel steel accessories are mainly made of high-grade chrome nickel steel sheets and tubing, material AISI 304 (1.4301), surface polished grain 240/320.

## INSTRUMENT TROLLEYS AND ANAESTHETIC TABLE

### Instrument trolleys, 800 mm, 900 mm or 1000 mm high and anaesthetic table

complying with DIN standard for packaging of sterile goods. Made of high-grade chrome nickel steel sheets and tubing, material AISI 304 (1.4301), surface polished grain 240/320.

Mobile on 4 antistatic swivel castors, diameter 75 mm, double-row ball bearings, anti-thread mechanism, bumpers, two of the castors provided with brakes.
